Resubmitted with reference to A.S.' querry at A above:

2. In G.O.No.311, Home, dated 29.1.46, the Government directed that in future a report on every case of hunger strike in a Jail should be submitted to Government immediately. The I.G. of Prisons was asked to issue necessary instructions to the Superintendent of Jails. In G.O.No.1701, Home dated 12.5.52, rule 40-A of the rules in Part III of the Subjails Manual was amended, laying down that in cases where forcible feeding cannot be given or institutional treatment is necessary, the prisoner may at the discretion of the Medical Officer be sent to the District or Taluk Headquarters Hospital or to the nearest hospital where necessary facilities are available. Since the amendment was issued, no ~~x~~ specific instructions have been issued by the Govt. as to who should submit reports about the hunger striker after his admission in the hospital. In another connection, the D.M.S. has stated that all sub jails are situated in places where regular dispensaries are functioning; that facilities exist for recording temperature, pulse, respiration and examination of urine in almost all the Medical Institutions and that it will be practicable for the Medical Officers of all subjails to maintain medical reports containing the above data in respect of prisoners resorting to hunger strike.

p.t.o.

In the circumstances, the question of issue of instructions to the Superintendents, Subjails may be taken up separately in consultation with the Inspector General of Prisons.

3. In this case, the Medical Officer in charge of the subjail and the A.D.M.O. Cuddalore seem to be one and the same persons. The I.G. may therefore be asked to issue instruction to the subjail superintendent that he should continue to send daily reports about the prisoner on hunger strike even after his admission in the hospital. Subject to orders, a draft memo. is submitted for approval.
